

## Cascadia Water Trail Campsites

### Camano Island State Park *The North Sound Area*

One of the classic beaches of the Northwest, Camano Island State Park features glowing sunsets, views of the Olympic Mountains, and plentiful wildlife. Camano Island was the very first Cascadia Marine Trail campsite. Families have been coming to the park for generations. For the kid in you, bring a kite!

#### Natural History.

Camano Island was named in 1791 after the Spanish explorer Jacinto Camano. Before that time, it was known as Kal-lut-chin, meaning "land jutting into the bay," by natives of the Kikialos and Snohomish tribes who inhabited the island. The tribes used this park site as their summer residence, erecting temporary shelters for their stay, and harvesting what the waters and forest had to offer.
