

Cascadia Water Trail Campsites

Skagit Island *The North Sound Area*

Skagit Island is one of many small islands in Skagit Bay. Skagit Bay is fed by the Skagit River whose waters come from the North Cascades and Canada. The 21-acre island has a primitive trail around its perimeter with best views to the south and neighboring Hope Island (North), also a Washington State park island.

Natural History.

Skagit's southern slopes, exposed to the sun, have fields of flowers. Both the common purple camas and white death camas can be found along with other native plants.
